

More than Swiss precision.
A better quality of life.

More than the latest technology.

Long-lasting satisfaction.

FEW COMPANIES HAVE SO MUCH TO OFFER

- More than 30 years of clinical evidence with over 1000 scientific publications that meet the highest standards of research
- More than 16 million implants placed worldwide
- Precision and quality “Made in Switzerland”
- Lifetime guarantee for your Straumann implants
- A trusted brand in over 70 countries
- SLActive® – our unique implant surface for better predictability and shorter healing times
- Roxolid® – our outstanding material for less invasive treatment options

Dental implant therapy is today’s treatment of choice

Replacing missing teeth with dental implants is a gift for your oral health and appearance. Implants improve your health-related quality of life and are cost-effective in the long run.

There are many implant systems, but not all are equal

With the increasing popularity of dental implants, many low-cost/non-researched implant systems are now available from various manufacturers. Most patients are not aware that there can be important differences in dental implant systems, including variations in quality, technology and research.

Backed by science

Only few systems on the market have been tested scientifically. The Straumann® Dental Implant System is one of the best documented, with more than 30 years of extensive scientific and clinical evidence. Straumann dental implants are backed by more than 1000 scientific publications.

More than Swiss quality.

A sense of trust.

A pioneer and global leader in implant dentistry

Straumann has been researching, developing and manufacturing implants since 1974. In collaboration with renowned international clinics, research institutes and universities, Straumann has pioneered many of the most influential and groundbreaking technologies and techniques in implant dentistry, with the aim to enhance implant success and improve patient experience.

Quality “Made in Switzerland”

With Swiss precision engineering roots and clinical excellence, the Straumann® Dental Implant System has earned worldwide trust. Clinicians in over 70 countries have placed more than 16 million Straumann implants.

Innovations to improve patient care

Straumann products and technologies were designed to enhance implant success and improve patient experience. Straumann's original SLActive® surface was developed to increase treatment predictability and to shorten healing time. The unique implant material Straumann® Roxolid® allows for more treatment options that can be less invasive. The Straumann® PURE Ceramic Implant is an ivory-colored, metal-free solution to treat patients with a thin or recessed gum and high esthetic demands.

More than durable.

An implant to last a lifetime.

Long-term commitment to dentists and patients

With a Straumann implant, you can fully trust in the longevity of the product. We provide a lifetime guarantee for implants should they have to be replaced, and tiered guarantee plans for prosthetic components. We ensure the availability of the necessary parts to service and restore any implant placed for many years to come, despite any changes in models, designs or technology.

Discuss with your dentist

Ask your dentist about the products they use to help deliver quality dental care. What type and brand of implants would they select for themselves or their family?

WORLDWIDE LEADER, WORLDWIDE TRUST

No matter where life takes you, care for you and your Straumann dental implant is nearby.

Visit www.straumann.com/patients to find out more about products and solutions by Straumann and ask your dentist.
